Instruction

To initiate a payment using our manual payment gateway, please follow the instructions provided below. We offer two convenient methods for you to choose from:

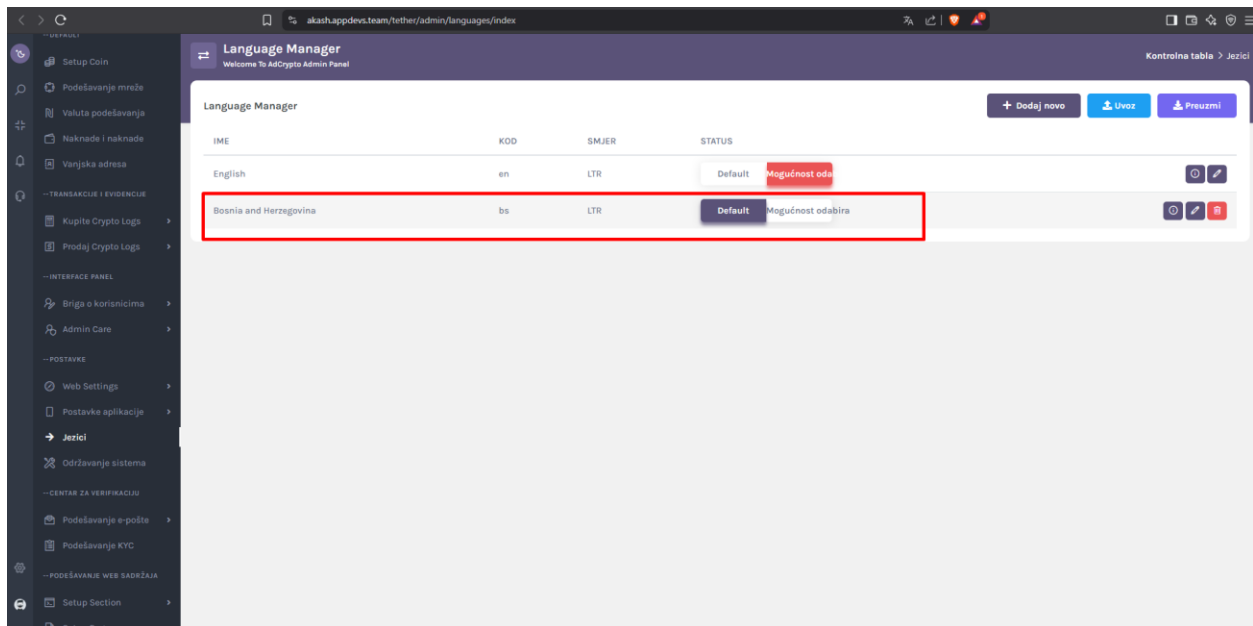

Option 1: PayPal Payment

Log in to your PayPal account or access the PayPal website.
Choose the option to send money or make a payment.

3. This requirement is currently in progress.

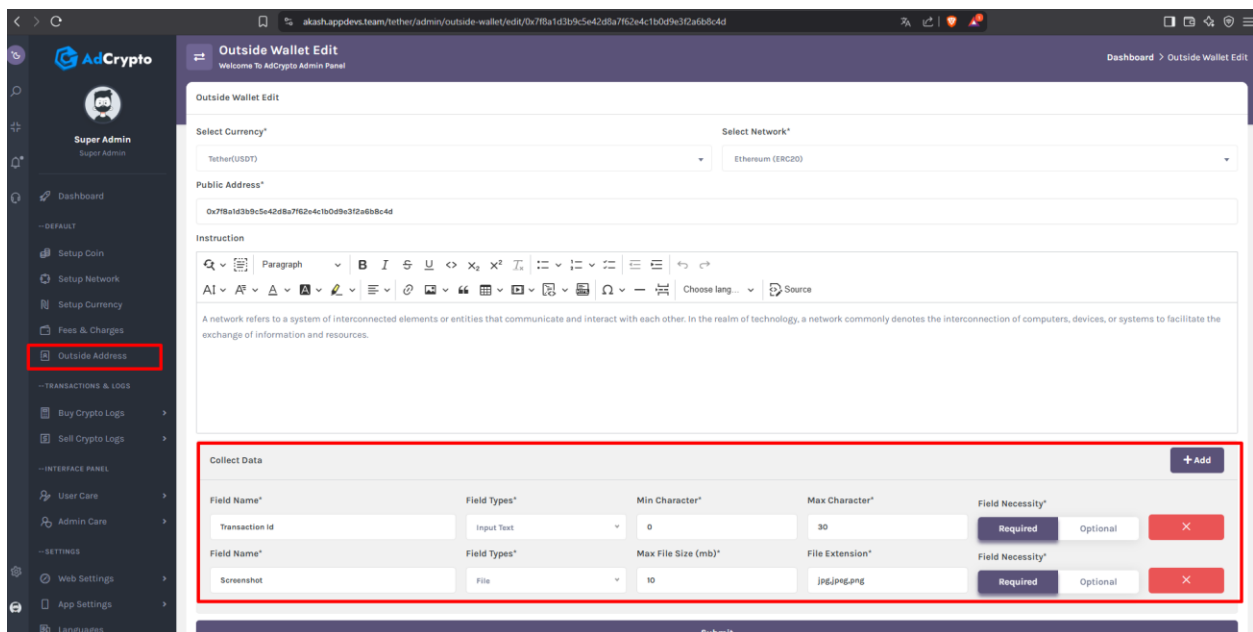

4. Done.

5. Done.

6. Kindly note that the screenshot and transaction ID section is mandatory for selling crypto, as it plays a crucial role in the transaction verification process. In the Admin Panel, there is a section called "Outside Wallet Address", where the admin sets up wallet addresses based on the selected currency and network to receive crypto payments for sell orders.

7. This requirement is currently in progress.

8. This requirement is currently in progress.

9. You can view your KYC status on the KYC Verification page within your user panel.
